**Category Two Narrative**

See spreadsheet for types of WAPs required (indoor versus outdoor). Indoor WAPs should be Mist AP41 or equivalent, outdoor WAPs should be Mist AP61 or equivalent. BMIC for User licenses needed for the 305 approximate WAPs included here and 405 WAPs from 2017 E-Rate that were funded. Cabling is an option and include it as so, do not assume that cabling will be awarded when pricing the 305 WAPs. All proposals should be sent to the E-Rate consultant (Rick Del Valle) at rick.delvalle@yahoo.com. Any vendor/proposer questions should be sent to rick.delvalle@yahoo.com as well. Answers will then be posted to the EPC site as well as Alameda Unified School District’s web-site. Proposals are due by 3:00pm on the Contract Award Date as noted on this Form 470. Bidders/Proposers must be E-Rate certified and have a valid SPIN for 2018-2019.
State or Local Procurement Requirements

District may consider multi-year contracts and/or contracts featuring voluntary extensions (contracts can be stand-alone or State Master contracts). District may consider contracts with flexible terms to allow for growth in number of sites and users and/or reduction of sites and users over the term of the contract(s). Service providers must comply with the FCC rules for Lowest Corresponding Price (“LCP”). Please contact technical contact (Rick Del Valle) by e-mail only, no phone calls will be accepted.
